MedEd Chat @mededchat4 days ago

Welcome to the Medical Education chat (US) I am your moderator for the next hour, @Alliance4ClinEd #meded

Alliance4ClinEd @alliance4clined4 days ago

Happy to be hosting tonight's topic! #meded <https://t.co/X0rzPK5g8g>

MedEd Chat @mededchat4 days ago

The topic & questions will be announced in a moment...for now, please introduce yourselves #meded

MedEd Chat @mededchat4 days ago

We will assume that all of your tweets are your own during this hour unless otherwise stated #meded

MedEd Chat @mededchat4 days ago

If you are tuning in to the #meded chat, remember to use the #meded hashtag and try to answer with the Topic numbers (T1, T2, T3)

A.J. Kleinheksel @ajkleinhex4 days ago

@MedEdChat Good evening, #MedEd chat! I'm an educational researcher at @AUG_EII. I study simulation & the assessment of higher order thinking skills.

MedEd Chat @mededchat4 days ago

Topic 1: How important is it to incorporate basic science content in the clerkships? #meded

Alliance4ClinEd @alliance4clined4 days ago

Many #medschools are talking about integrating basic sciences into the clerkships. T1 questions how important is it? <https://t.co/LUOgOyNGKK>

Gary Beck Dallaghan @gibdallaghan4 days ago

Many #medschools are talking about integrating basic sciences into the clerkships. T1 questions how important is it? #meded

Paul Haidet @myheroistrane4 days ago

T1: it is important, IF... it can be done in a way that is relevant to clinical decision making #meded

MedEd Chat @mededchat4 days ago

T1 How easy or hard is it do that? #meded <https://t.co/NDastdO1F2>

Alliance4ClinEd @alliance4clined 4 days ago

T1 Do you think there are particular disciplines where it would be easier to do than others? Say...surgery vs psychiatry? #meded <https://t.co/M2HQ09W1GS>

A.J. Kleinhexel @ajkleinhex 4 days ago

T1 Integrating foundational knowledge into advanced skills and practice is important in any field. A mind needs it to retain & excel. #meded

Paul Haidet @myheroistrane 4 days ago

T1: Well... it requires us all to stop covering content and start articulating the truly core concepts #meded

MedEd Chat @mededchat 4 days ago

RT @myheroistrane: T1: Well... it requires us all to stop covering content and start articulating the truly core concepts #meded

Paul Haidet @myheroistrane 4 days ago

Agreed. Hard to do when one is focused solely on "covering" content, tho #meded <https://t.co/ZYVPpqfWNo>

Paul Haidet @myheroistrane 4 days ago

RT @AJKleinhex: T1 Integrating foundational knowledge into advanced skills and practice is important in any field. A mind needs it to retain...

MedEd Chat @mededchat 4 days ago

Keep rolling on T1. T2 will be up in just a few minutes #meded

A.J. Kleinhexel @ajkleinhex 4 days ago

@myheroistrane Well, I never said it was easy. ;) But the really important things rarely are. #MedEd

Paul Haidet @myheroistrane 4 days ago

@AJKleinhex Absolutely. Just feels no a bit defeated tonight. #meded

Paul Haidet @myheroistrane 4 days ago

@AJKleinhex Absolutely, just feeling a bit defeated tonight. #meded

MedEd Chat @mededchat 4 days ago

Topic 2: In designing a curriculum for the clerkship, how would you integrate basic science content? #meded

Alliance4ClinEd @alliance4clined 4 days ago

T2 #meded How can an already full clinical curriculum seamlessly add basic science content into the clerkship? <https://t.co/GtALnQAjkr>

A.J. Kleinheksel @ajkleinhex4 days ago

@myheroistrane I'm right there with you today. But that's why we #MedEd chat, right? To remember we're not alone, and this is a pretty great brain trust.

Gary Beck Dallaghan @gldbhallaghan4 days ago

@MedEdChat T2 #meded This is a struggle that I couldn't overcome when I managed the pediatrics clerkship. Interested to hear ideas!

Alliance4ClinEd @alliance4clined4 days ago

T2 Maybe @COMSEPediatics can provide guidance to incorporate basic sciences #meded <https://t.co/42NfAlr4C9>

Gary Beck Dallaghan @gldbhallaghan4 days ago

RT @Alliance4ClinEd: T2 Maybe @COMSEPediatics can provide guidance to incorporate basic sciences #meded <https://t.co/42NfAlr4C9>

A.J. Kleinheksel @ajkleinhex4 days ago

T2 There will always be more content to cover. Concept-based curriculum is 1 strategy to combat this, but it's not perfect. #meded

Emily Fridenmaker @emily_fri4 days ago

@MedEdChat T2 #meded Topically. Lectures given on a clinical topic should include the basic science content related to the disease/treatment.

Gene Hobbs @gene_hobbs4 days ago

RT @GLBDallaghan: @MedEdChat T2 #meded This is a struggle that I couldn't overcome when I managed the pediatrics clerkship. Interested to h...

A.J. Kleinheksel @ajkleinhex4 days ago

T2 "Seemless" integration of foundational knowledge can sometimes just mean reframing existing content. #meded

MedEd Chat @mededchat4 days ago

T2 #meded What if didactics have been curtailed to be focused, clinically relevant material? Not enough time to cover it all in 10 minutes. <https://t.co/6KBlxHyU6F>

Gene Hobbs @gene_hobbs4 days ago

RT @MedEdChat: T2 #meded What if didactics have been curtailed to be focused, clinically relevant material? Not enough time to cov...

MedEd Chat @mededchat4 days ago

T2 #meded Could you elaborate on the concept-based curriculum? <https://t.co/oihdLomOD2>

Clinton Lewis @cwlblooddoc 4 days ago

@MedEdChat In longitud'l clerkship w/ 18 clerks taught each other with expert moderator. Peer2peer approach encouraged deep dive. #MedEd #T2

Ian Pereira @ijohnpereira 4 days ago

RT @myheroistrane: T1: it is important, IF... it can be done in a way that is relevant to clinical decision making #meded

MedEd Chat @mededchat 4 days ago

T2 #meded Was the expert moderator a basic scientist? Or did you use a combination of clinician and PhD? <https://t.co/WUZzv9SicW>

Alliance4ClinEd @alliance4clined 4 days ago

RT @CWLBloodDoc: @MedEdChat In longitud'l clerkship w/ 18 clerks taught each other with expert moderator. Peer2peer approach encouraged dee...

Alliance4ClinEd @alliance4clined 4 days ago

RT @AJKleinhex: T2 There will always be more content to cover. Concept-based curriculum is 1 strategy to combat this, but it's not perfect....

Paul Haidet @myheroistrane 4 days ago

Gotta remember the hidden curriculum. If attending a don't model usage of basic science concepts, students won't learn. #meded

Ian Pereira @ijohnpereira 4 days ago

@myheroistrane +1. Perhaps too often basic science education seems like a purely academic exercise. Hard to apply. Hard to justify. #MedEd T1

Alliance4ClinEd @alliance4clined 4 days ago

T2 #meded It would be interesting to hear what @BJBRoman would suggest from the work at #WrightState <https://t.co/HUDNXyXopl>

A.J. Kleinhexsel @ajkleinhex 4 days ago

@MedEdChat Concept-based curriculum focuses on ideas with examples instead of specific content. So it frees up more space to focus on cog skills #MedEd

Alliance4ClinEd @alliance4clined 4 days ago

T1 #meded But as the foundation for clinical application, why is it hard to apply? <https://t.co/fqYKDh1fpw>

Gene Hobbs @gene_hobbs 4 days ago

T2 #MedEd: I like the idea of providing the basic science content online & referring to it when pertinent clinically or in simulations

gwen.mom.md @gdyagra4 days ago
@DeanSurg @Marg_Hay @RACSurgeons There is no age cap to learning. #profdev #MedEd

Alliance4ClinEd @alliance4clined4 days ago
T2 #meded How can you get buy in from faculty to model integration of basic science concepts in patient care? <https://t.co/3RYsycsmj0>

Clinton Lewis @cwlblooddoc4 days ago
@MedEdChat T2 #MedEd usually interested clinician with expert support PRN. Teaching distributed @8 rural sites so could leverage central expertise.

Gary Beck Dallaghan @glbdallaghan4 days ago

Ian Pereira @ijohnpereira4 days ago

@Alliance4ClinEd Traditionally, a disconnect between clinical practice & evidence, perhaps even for complex cases? #MedEd T1

Gene Hobbs @gene_hobbs4 days ago

@CWLBloodDoc T2 #MedEd. If it matters, they will come :)

MedEd Chat @mededchat4 days ago

T3 #meded You can go as full nerd as you want! :) <https://t.co/7RYIUhdYgl>

MedEd Chat @mededchat4 days ago

RT @myheroistrane: T3: better conceptual understanding leads to better medical decisions leads to fewer diagnostic errors. #MedEd

Alliance4ClinEd @alliance4clined4 days ago

RT @myheroistrane: T3: better conceptual understanding leads to better medical decisions leads to fewer diagnostic errors. #MedEd

Gene Hobbs @gene_hobbs4 days ago

RT @myheroistrane: T3: better conceptual understanding leads to better medical decisions leads to fewer diagnostic errors. #MedEd

Paul Haidet @myheroistrane4 days ago

@gene_hobbs @CWLBloodDoc Agreed, and I believe "pulling" always sticks better #meded

Clinton Lewis @cwlblooddoc4 days ago

@gene_hobbs T2 #MedEd context matters. Wish I'd learned more basic science as a Med student now that I'm an advanced fellow. I needed a bigger push.

MedEd Chat @mededchat4 days ago

@myheroistrane T3 #meded Has this been studied at all with #medstudents ?

A.J. Kleinheksel @ajkleinhex4 days ago

T3 Integration facilitates situated cognition: basic sci will be easier to recall when learned/reinforced in environment where used. #MedEd

Ian Pereira @ijohnpereira4 days ago

@myheroistrane Interesting point. Is this conceptual understanding of the basic sciences and/or hospital guidelines? #Guidelined #MedEd at2

Paul Haidet @myheroistrane4 days ago

Testify, brother! #meded <https://t.co/GMSXGjIMIN>

Gene Hobbs @gene_hobbs4 days ago

RT @myheroistrane: @gene_hobbs @CWLBloodDoc Agreed, and I believe "pulling" always sticks better #meded

MedEd Chat @mededchat4 days ago

T2 #meded So you see value of integration in the clerkships as well as fourth year? <https://t.co/7AQAmLjKr8>
