Welcome to the Medical Education chat (US) I am your moderator for the next hour, @alliance4clined #meded

The topic & questions will be announced in a moment...for now, please introduce yourselves #meded

If you are tuning in to the #meded chat, remember to use the #meded hashtag and try to answer with the Topic numbers (T1, T2, T3)

We will assume that all of your tweets are your own during this hour unless otherwise stated #meded

@MedEdChat Gary here in Chicago tonight for the #meded chat!

Hi #meded It’s Renee in Philly. I’m looking forward to tonight’s chat

Welcome, Renee #Meded https://t.co/Nl9Mytsmv5

Topic 1: How are residents incorporated into the curriculum as educators at all levels of training? #meded

Hey everyone. Marty in MCW @MedicalCollege in Milwaukee here. #meded
Alliance4ClinEd @alliance4clinedan hour ago
We're talking about residents as teachers tonight! We know they teach in patient care settings...but what about pre-clinical teaching? #MedEd https://t.co/J5lDKBd33z

MedEd Chat @mededchatan hour ago
Welcome, Marty! #meded https://t.co/RYD77Dda9p

Gary Beck Dallaghan @glbdallaghanan hour ago
T1 #meded We have had residents help with small group teaching in intro to clinical medicine courses...but not a lot. https://t.co/r02PXMNnvZ

Renee @02amoran hour ago
T1 #meded In terms of fellows, we use them as teaching extensions of the attendings. Our fellows have done formal lectures, led a workshop, and mentored resident’s preparing presentations

Alliance4ClinEd @alliance4clinedan hour ago
T1 #meded I would say both. Thoughts? https://t.co/ND1NN9AuEd

Alliance4ClinEd @alliance4clined an hour ago
T1 #meded How much time do residents get with senior #medstudents in a formal educator capacity?

MedEd Chat @mededchat an hour ago
RT @Alliance4ClinEd: T1 #meded How much time do residents get with senior #medstudents in a formal educator capacity?

Gary Beck Dallaghan @glbdallaghan an hour ago
Topic 2: What guidelines are used to determine residents as teachers at your institution? #meded
Gary Beck Dallaghan @glbdallaghan an hour ago
@Alliance4ClinEd T1 #meded On subinternships they do quite a bit; however, in some of the more clinically oriented rotations it's not been done quite as well. I wonder if it is different depending on the discipline?

Renee @02amoran hour ago
#meded T2 do you mean beyond the resident supervising the SubI? https://t.co/XeNE1eVRfe

Alliance4ClinEd @alliance4clined44 minutes ago
@02amor T1 #meded Yes.

Marty Muntz @mmteacherdoc44 minutes ago
@Alliance4ClinEd Think it depends what you mean by “formal.” Our subinterns work in intern capacity with direct senior resident supervision & teaching. Just like interns. #meded

MedEd Chat @mededchat42 minutes ago
Topic 2: What guidelines are used to determine if residents are ready to be teachers at your institution? #meded

Renee @02amor42 minutes ago
@GLBDallaghan @Alliance4ClinEd #meded T2 I think in medicine most residents on subspecialty electives probably defer a lot of teaching students to a fellow. Might be different in surgery or ob

Alliance4ClinEd @alliance4clined42 minutes ago
T2 #meded How do we train residents to be teachers? When do we know they are ready to teach? https://t.co/N9ze2T5uAl

Renee @02amor41 minutes ago
RT @MedEdChat: Topic 2: What guidelines are used to determine if residents are ready to be teachers at your institution? #meded

Gary Beck Dallaghan @glbdallaghan40 minutes ago
@MedEdChat T2 #meded This is an excellent question. We give them a brief orientation before July 1 then turn them loose to teach. Is that sufficient? Should we be doing more before they can teach students in clinical settings?

Marty Muntz @mmteacherdoc 35 minutes ago
@02amor @GLBDallaghan @Alliance4ClinEd It depends. I think some fellows teach to the resident level. Good senior residents will “repackage” for students. There’s loads a good resident can teach students on a subspecialty service. #meded

Amy Smith @dramybsmith 35 minutes ago
T2 #meded who observes the residents teach and how do they receive feedback?

Alliance4ClinEd @alliance4clined 34 minutes ago
T2 #meded Exactly! How much are we actually training them to teach….especially since they spend the most time with #medstudents? https://t.co/wtVC7zAYxS

Marty Muntz @mmteacherdoc32 minutes ago
Agree! Usually ok. In July, new clerkship students are VERY green. Loads of low-hanging fruit to teach/learn. And hopefully teaching is a team activity in #mededhttps://t.co/rucZoSixmp

Renee @02amor32 minutes ago
@Alliance4ClinEd #meded T2 Oh, I had no idea what I was doing. Just about anything would have helped! Our IM residents due get some in the transition to resident retreat. But smaller, more frequent instruction would be my ideal

Alliance4ClinEd @alliance4clined31 minutes ago
T2 #meded Ideally it is, but what about on rotations where it may be just the intern and a fresh faced clerk in July? https://t.co/G5Va1XdV9t

Gary Beck Dallaghan @glbdallaghan30 minutes ago
#meded Since we are moving to competency based education….shouldn't there be some baseline standards for being a medical educator? @MedEdChat@Alliance4ClinEd https://t.co/9PCD4bspG1

Marty Muntz @mmteacherdoc29 minutes ago
Every ACGME residency program is required to have a resident as teachers program. Ours starts at orientation with early intern year sessions on teaching in the first few months. #meded https://t.co/mxG6jTAsAM

Renee @02amor29 minutes ago
@mmteacherdoc @GLBDallaghan @Alliance4ClinEd #meded I think it varies. If a resident has matched into that field for a fellowship, he/she may try out some teaching with the students. Ex: teaching ekg reading if you’re going into Cards
Alliance4ClinEd @alliance4clined28 minutes ago
T2 #meded Peds has that as well, but we have never really done anything locally to determine if the residents are truly prepared to teach. We just assume a lecture once a month will do the trick. Do you do anything different? [https://t.co/Zi3dLpfAij](https://t.co/Zi3dLpfAij)

Topic 3: How do you assess effectiveness of RATs? #meded

Marty Muntz @mmteacherdoc27 minutes ago
@Alliance4ClinEd Interns need supervision too. #meded

Alliance4ClinEd @alliance4clined26 minutes ago
T3: We've been leading to this question....How are RATs programs assessed? #meded

Gary Beck Dallaghan @gldallaghan25 minutes ago
@MedEdChat T3 #meded About the only way we can tell is through student evaluations.....but sometimes that is more about likability and not teaching. I would love to hear what others are doing.

Gary Beck Dallaghan @gldallaghan25 minutes ago
RT @mmteacherdoc: @Alliance4ClinEd Interns need supervision too. #meded

Marty Muntz @mmteacherdoc24 minutes ago
@02amor @GLBDallaghan @Alliance4ClinEd Agreed. But I hope med residents not going in to cards can teach ecg. Not going in to GI can teach about upper GI bleeding. Etc. and if too complex, admit it & learn together. #meded

Renee @02amor24 minutes ago

Gary Beck Dallaghan @glbdallaghan22 minutes ago
@mmteacherdoc @02amor @Alliance4ClinEd T3 #meded This is me being obnoxious....but simply because someone is an expert doesn't necessarily equate to being a good teacher. We've all experienced that.

Marty Muntz @mmteacherdoc21 minutes ago
@Alliance4ClinEd We have done some OSTEs in the past. But even with those, it's not feasible to say residents can't teach on most services. Get loads of feedback from students & team teaching activities w attending supervision. Variable by faculty tho. #meded

amy smith @dramybsmith21 minutes ago
@GLBDallaghan @MedEdChat T3 #meded isn't this the same with faculty evals? often it is about the likeability of the faculty by students not necessarily the teaching.

Gary Beck Dallaghan @glbdallaghan21 minutes ago

Marty Muntz @mmteacherdoc20 minutes ago
@Alliance4ClinEd I might ask the same question though about faculty. Do all new faculty get “certified” before allowed to start teaching? #meded

Alliance4ClinEd @alliance4clined20 minutes ago
@mmteacherdoc T3 #meded Do the OSTEs require a lot of time to prepare? How do the residents respond to them?

Gary Beck Dallaghan @glbdallaghan19 minutes ago
T3 #meded I completely agree with you! I have the same questions. @Alliance4ClinEd @MedEdChat https://t.co/Ob3T22Jc83

Alliance4ClinEd @alliance4clined17 minutes ago
@mmteacherdoc T3 #meded That’s unfortunate. Do they just not find an OSTE to be valuable? Would maybe having a “secret shopper” type of student encounter be better?

Janet Riddle @janetriddledme17 minutes ago
@mmteacherdoc @MedEdChat @Alliance4ClinEd I agree - mostly feedback from students and impressions/observations from attending physicians. #MedEd

Paul Haidet @myheroistrane16 minutes ago
Coming late to the discussion- Residents = near-peer teachers. Pros and cons to this. Bottom line is that we need to partner w/ residents in teaching students and plan out who will do what when #teaching in clinical environments. #meded

Alliance4ClinEd @alliance4clined15 minutes ago

Alliance4ClinEd @alliance4clined 11 minutes ago

#meded This has been a great conversation that I think raises more questions than we've gotten answers. Although residents are required training for teaching, what quality metrics do we apply to their teaching? @MedEdChat @JanetRiddleDME

Paul Haidet @myheroistrane 10 minutes ago

@Alliance4ClinEd I don't buy into the idea of a RAT program that does some training and then just turns residents loose; we need to mentor them as teachers longitudinally. That's what we would do if they were faculty. #meded

Marty Muntz @mmteacherdoc 9 minutes ago

@Alliance4ClinEd I think the key is to “trust but verify” rather than “pre-certification” of resident teaching. #meded

Gary Beck Dallaghan @glbdallaghan 9 minutes ago

@myheroistrane @Alliance4ClinEd #meded I've seen it happen locally....and also seen very cursory training to teach for the residents.

MedEd Chat @mededchat 8 minutes ago

RT @mmteacherdoc: @Alliance4ClinEd I think the key is to “trust but verify” rather than “pre-certification” of resident teaching. #meded

Paul Haidet @myheroistrane 8 minutes ago

@GLBDallaghan @Alliance4ClinEd The devil is definitely in the details. #meded
Join us again next week at 9 pm Eastern, Thursday. Don't forget to suggest topics by DM or email #meded. Next week we'll be discussing the purpose of exams!

Exams have a purpose???
