Welcome to the Medical Education chat (US) I am your moderator for the next hour, [@alliance4clined](#) [#meded](#) Tonight we have a special guest moderator, [@myheroistrane](#) from [@SDRME\\_Meded](#)

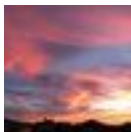

**Gary Beck Dallaghan** [@GLBDallaghan](#) 9 hours ago

[@MedEdChat](#) [@Alliance4ClinEd](#) [@myheroistrane](#) [@SDRME\\_Meded](#) [#meded](#) Gary here in Omaha! Just got home less than an hour ago!

**MedEd Chat** [@MedEdChat](#) 9 hours ago

The topic & questions will be announced in a moment...for now, please introduce yourselves [#meded](#)

**Paul Haidet** [@myheroistrane](#) 9 hours ago

Hey there, I'm Paul from Hershey Pa, and I'm passionate about [#meded](#) research!

**Ian Pereira** [@IanJPereira](#) 9 hours ago

If you are tuning in to the [#meded](#) chat, remember to use the [#meded](#) hashtag and try to answer with the Topic numbers (T1, T2, T3)

**MedEd Chat** [@MedEdChat](#) 9 hours ago

We will assume that all of your tweets are your own during this hour unless otherwise stated [#meded](#)

**Paul Haidet @myheroistrane** 9 hours ago

As Director of [#meded](#) research, I do a lot of consultations. Many of our teaching faculty do not get a lot of mentoring within their departments -- gotta fix this. How is it at your institution?

**Anthony R Artino Jr @mededdoc** 9 hours ago

[@MedEdChat](#) T1 from our division of health professions education! :) [#meded](#)

**Gary Beck Dallaghan @GLBDallaghan** 9 hours ago

[@MedEdChat](#) T1 [#meded](#) It takes regularly reminding people at my institution to consider how what they're doing could be scholarly....then having consultations with them.

**SDRME @SDRME\_Meded** 9 hours ago

SDRME has members at over 80 med schools worldwide. If your school has a member (check our website to find out), they can be a great resource for advice and mentoring in [#MedEd](#) scholarship

**Kurt Gilliland, PhD @kogillil** 8 hours ago

[@MedEdChat](#) [@medchat](#) T1 Speaking for our basic science faculty, there is no one in our basic sci depts to provide mentoring on educ scholarship. [#meded](#)

**Paul Haidet** [@myheroistrane](#) 8 hours ago

[@maxlibris](#) Totally agree. I think that writing should be an integral part of [#meded](#) at all levels. Physicians who cannot write with focus and clarity can perpetuate medical errors.

**Gary Beck Dallaghan** [@GLBDallaghan](#) 8 hours ago

[@kogillil](#) [@MedEdChat](#) [@medchat](#) T1 [#meded](#) I guess we'll have to see what can be done to change that. :)

**Anthony R Artino Jr** [@mededdoc](#) 8 hours ago

T1: we are lucky enough to have ~10 [#meded](#) faculty: 2 MD/PhDs and another 8ish PhDs with training in [#edpsych](#), adult learning, English, and [#HPE](#), among other fields. We are super fortunate tho! <https://t.co/hwJt7sS7DH>

Hi [#MedEd](#). Ian from Canada

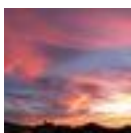

**Terry Kind, MD MPH** [@Kind4Kids](#) 8 hours ago

Formal, informal, peers, near peers. Division, dept, school, academy, society. And it takes passion, people, skill, and time. [#meded](#) [@MedEdChat](#)

**Anthony R Artino Jr** [@mededdoc](#) 8 hours ago

T1: we also have a very robust [#facdev](#) program and are starting an Academy [#meded](#)

**Paul Haidet** [@myheroistrane](#) 8 hours ago

[@kogillil](#) [@MedEdChat](#) [@medchat](#) Which is so ironic, since the basic scientists have such good chops in thinking through projects -- wonder that the brains seem to get turned off when designing [#meded](#) research

Communities of practice are definitely a must. How do you find the resources and time to build this at your own institution? [#mededhttps://t.co/MWGp4YYS9I](https://t.co/MWGp4YYS9I)

**Terry Kind, MD MPH @Kind4Kids** 8 hours ago

Curricular revision (planning, implementation, evaluation, innovation) can/should also provide good fodder for [#meded](#) exploration.

**Kurt Gilliland, PhD @kogillil** 8 hours ago

[@myheroistrane](#) [@MedEdChat](#) [@medchat](#) I think many of the tenure-track faculty do only bench research (with cameo teaching) while non-tenure-track faculty (with less motivation to publish) have the major teaching roles in many schools. [#meded](#)

**Anthony R Artino Jr @mededdoc** 8 hours ago

[@GLBDallaghan](#) [#MedEd](#) The Academy will be run out of the Division, so the faculty will plan an integral role in mentoring, educating, etc. And eventually, our Division will likely become a University center, instead of a division inside the department of med.

**Paul Haidet** [@myheroistrane](#) 8 hours ago

[@kogillil](#) [@MedEdChat](#) [@medchat](#) Agreed, and there is much less time to think, ponder, and develop new ideas. [#meded](#)

[@Kind4Kids](#) [@childrenshealth](#) T1 [#meded](#) How do you and [@mededdoc](#) get dedicated resources to do that well? I know places set them up but they are still so under resourced it's almost embarrassing.

**Paul Haidet** [@myheroistrane](#) 8 hours ago

[@Kind4Kids](#) [@childrenshealth](#) Do you think that med schools need to move to a model that includes a Department of Medical Education? [#meded](#)

**Gary Beck Dallaghan** [@GLBDallaghan](#) 8 hours ago  
[@myheroistrane](#) [@Kind4Kids](#) [@childrenshealth](#) T1 [#meded](#) Yes.

[@debsimpson3](#) [@mededdoc](#) T1 [#meded](#) Value is found in productivity of an organization. [@SDRME\\_Meded](#) has ample opportunity with its members to do multi-institutional research. We need to do better.

[@myheroistrane](#) [@Kind4Kids](#) [@childrensheath](#) How would this be different from a department/faculty of medicine? [#MedEd](#) T2

**SDRME** [@SDRME\\_Meded](#) 8 hours ago

T2: the US Dept of Veterans in the 1990s is a good model here - they needed to improve health outcomes, and realized that a health services research infrastructure would help, so they built and resourced it. Robust scholarship will improve learning outcomes in [#MedEd](#)

**Terry Kind, MD MPH** [@Kind4Kids](#) 8 hours ago

[@myheroistrane](#) [@childrensheath](#) Good to have a robust office of med ed and office of eval. Should partner with faculty. Need internal/external grant opportunities. Mentorship. More. [#meded](#)

**Kurt Gilliland, PhD** [@kogillil](#) 8 hours ago

[@GLBDallaghan](#) [@myheroistrane](#) [@Kind4Kids](#) [@childrensheath](#) T2: I would be in favor of the discussion... but as someone who teaches histology, I do sort of like being a card-carrying cell biologist surrounded by whirring centrifuges and by those who teach in the lab sessions I coordinate.
