Gary Beck Dallaghan [@GLBDallaghan](#) 7 hours ago

That's a bit of a loaded question but can we consider sustained engagement can be native and doesn't have to require extra attention? Ex, what are we doing to get buy-in from residents foundationally? [#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)

[@LAS_Inc](#) Completely agree. We almost need to determine what are the intrinsic motivators for learning. Often times that is impacted by situation interest. [#mededchat](#)

Jennifer Madeline [@jennifermcaputo7 hours ago](#)

[@Alliance4ClinEd](#) [@MedEdChat](#) T1 I allow learners to present their findings and plan in an environment where it's ok to admit uncertainty, whether had trouble synthesizing info into dx or uncertain of tx and then target my teaching points to that knowledge gap [#mededchat](#)

Jennifer Madeline [@jennifermcaputo7 hours ago](#)

[@GLBDallaghan](#) [@Alliance4ClinEd](#) [@MedEdChat](#) T1 one of the strategies that helps is admitting my own knowledge gaps and not being afraid to say I don't know but let's look it up together [#mededchat](#)
