TOPIC 1: What were the pro's and con's of attending virtual conferences during the pandemic? [#MedEdChat](#) [#meded](#) [#facdev](#)

Lonika Sood, MBBS MHPE [@sood_lonika](#) 8 hours ago

Lonika joining from the PNW [#MedEdChat](#) <https://t.co/e4nIHuQZdg>

Stephanie Starr, MD [@StephRStarr](#) 8 hours ago

[@MedEdChat](#) T1: Pros: More family time. Greener planet. Cons: Missing collaboration and community building with national colleagues [#MedEdChat](#)

Shireen Madani Sims, MD [@UFDOC](#) 8 hours ago

[@MedEdChat](#) T1- well, certainly less expensive and usually less time away from work and home [#MedEdChat](#)

Scott Graziano [@sgraziano118](#) hours ago

[@UFDOC](#) [@MedEdChat](#) Way less expensive. [#mededchat](#)

Christopher Morosky [@cmmorosky](#) 8 hours ago

T1 pros: decreased [#carbonfootprint](#), easier to schedule in, RECORDINGS, virtual app competitions, messaging, MUCH more accessible, more opportunity for presentations... [#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan](#) 8 hours ago

T1 I think a huge pro is the ease in which colleagues from around the globe can join conferences. [#MedEdChat](#)

Shireen Madani Sims, MD [@UFDOC](#) 8 hours ago

[@MedEdChat](#) T1- but really miss the human connection. And to be honest, a hotel room all to

myself [#MedEdChat](#)

Scott Graziano [@sgraziano118](#) hours ago

[@croyce62](#) [@MedEdChat](#) I thought the networking was not bad at [#FDS](#) [@apgonews](#) [#mededchat](#)

@MedEdChat Better for my introverted soul. #mededchat

Scott Graziano @sgraziano118 hours ago
@GLBDallaghan A lot more inclusive for nursing colleagues residents and admin staff. #mededchat

Gary Beck Dallaghan @GLBDallaghan8 hours ago
@StephRStarr @MedEdChat T1 Totally agree with your con. #COMSEP2021 had the only platform that actually facilitated ad hoc collaboration easily. None of the others have...which is a bummer. #MedEdChat

Lonika Sood, MBBS MHPE @sood lonika8 hours ago
T1: pros-i make my own coffee; cons- i make my own coffee #MedEdChat <https://t.co/6jrX90IBPk>

Shireen Madani Sims, MD @UFDOC8 hours ago
@sgraziano11 @croyce62 @MedEdChat @apgonews Agree! Platform selection is important to allow networking and sharing of ideas! #MedEdChat

Scott Graziano @sgraziano118 hours ago
@sood lonika Always had my McDonalds Diet Coke. #mededchat

Elise Everett @EliseEverett158 hours ago
@MedEdChat I worry hybrid will spread organizers too thin and potentially be twice as expensive as you end up doing 2 meetings. I like the idea of alternating each year. In person vs virtual. #mededchat

Christopher Morosky @cmmorosky8 hours ago
T1 cons: networking (so miss my #medEd colleagues!), brainstorming in person, mentoring, writing abstracts and papers together in coffee shops! #MedEdChat

Scott Graziano @sgraziano118 hours ago
@cmmorosky There was a lot of work that usually got done in person that did not happen virtually for sure. #mededchat #networking

Stephanie Starr, MD @StephRStarr8 hours ago
@cmmorosky T1: Yes and sharing meals. Secret sauce for community building and building professional relationships! #MedEdChat

Gary Beck Dallaghan @GLBDallaghan8 hours ago
@EliseEverett15 @MedEdChat T1 It definitely depends on the size of the meeting. APGO's meeting is huge so hybrid would probably not work well. Smaller conferences may...@SDRME Meded is planning to be hybrid...but it is a really small meeting. #MedEdChat

Lonika Sood, MBBS MHPE @sood lonika8 hours ago
@StephRStarr @cmmorosky Seems so weird that we shared meals with others, right... I miss that #mededchat

T1 con: SO easy to schedule clinical work, meetings, and take care of messaging tasks when virtually participating in conferences vs. being on site at the conference venue #MedEdChat

Scott Graziano @sgraziano118 hours ago
@GLBDallaghan @EliseEverett15 @MedEdChat @SDRME Meded True. For a small setting could work well. #mededchat

I miss the after conference drinks. Not big on drinking but nice to relax with colleagues. [#mededchat](#)

MedEd Chat (hosted by ACE) [@MedEdChat](#) 8 hours ago

TOPIC 2: In thinking about successful meetings, what were best practices for these virtual conferences? [#MedEdChat](#) [#meded](#) [#facdev](#)

Temple Ratcliffe [@templeratcliffe8](#) hours ago

T1: Mentioned before, but most glaring deficit has been networking, informal conversations, and just seeing friends/colleagues. [#MedEdChat](#)

Sateesh Arja, M.B.B.S., MHPE, MSPH [@ArjaSateesh8](#) hours ago

[#mededchat](#) Sateesh Arja from Avalon University School of Medicine, Curacao [#meded](#)

[@MedEdChat](#) I spread myself too thin in virtual and tried to work, attend meeting and be a family member. Better to protect or block time. [#mededchat](#)

Jill M Sutton [@JillMSutton20008](#) hours ago

[@UFDOC](#) [@MedEdChat](#) This!!! [#MedEdChat](#)

Christopher Morosky [@cmmorosky](#) 8 hours ago

[@sood_lonika](#) Eventually [#multitasking](#) distracts from focus. Sometimes it's good to unplug and really [#invest](#) in the topic of the conference and the colleagues and mentors around you [#MedEdChat](#)

T1 No jetlag or lost luggage [#MedEdChat](#)

Temple Ratcliffe [@templeratcliffe8](#) hours ago
T1: Another potential con. Worry that the "good enough" virtual experience will lead institutions to justify slashing CME/travel budgets. This could disproportionately affect students, residents, and junior faculty. [#MedEdChat](#)

Lonika Sood, MBBS MHPE [@sood_lonika8](#) hours ago
[@Alliance4ClinEd](#) Maybe next year will be the year to do the scoping review [#mededchat](#)

Gary Beck Dallaghan [@GLBDallaghan8](#) hours ago
[@sgraziano11](#) T2 100+ percent YES. [@COMSEPediatrics](#) had a great platform for our meeting. I actually felt like I was at a meeting and not sitting in my office. Ease of impromptu meetings was unlike any platform I've experienced. [#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan](#) 8 hours ago

[@croyce62](#) [@MedEdChat](#) T3 I love that you like that, but I am one of those people that finds it horribly distracting. I have to shut it off so I stay focused on what's being said. [#MedEdChat](#)

Christopher Morosky [@cmmorosky](#) 8 hours ago

[@croyce62](#) [@MedEdChat](#) Totally agree - it was like my usual [#Twitter](#) side conversation with my Twitter buddies during the conference, but everyone at the conference was engaged in the conversation [#MedEdChat](#)

Lonika Sood, MBBS MHPE [@sood_lonika](#) 7 hours ago

[@apgonews](#) might want to send some [#snackpacks](#) to [@AAIMOnline](#) ... just saying.... [#MedEdChat](#) <https://t.co/oqxt3PLY3y>

Christopher Morosky [@cmmorosky](#) 7 hours ago

T3 - [@SpotMe](#) did totally right by us for the [@apgonews](#) [#FDS2021](#) Great tech support, good networking ability with competitions and chat rooms. Seamlessly integrated Zoom and schedule. Pretty smooth! [#MedEdChat](#)

MedEd Chat (hosted by ACE) [@MedEdChat](#) 7 hours ago

TOPIC 4: As we hopefully get back to in-person meetings, what would a hybrid meeting look like? [#MedEdChat](#) [#meded](#) [#facdev](#)

Christopher Morosky [@cmmorosky](#) 7 hours ago

[@GLBDallaghan](#) [@croyce62](#) [@MedEdChat](#) Totally need to balance [#presence](#) and being in the moment with the conversation happening on "the side". No easy task! [#MedEdChat](#)

Lonika Sood, MBBS MHPE [@sood_lonika](#) 7 hours ago

[@MedEdChat](#) T4: respectful of those who can't attend in person [#mededchat](#)

Matt Sakumoto [@MattSakumoto](#) 7 hours ago

[@GLBDallaghan](#) T3 AMIA had networking platforms where you could walk around as a cartoon character and "meet" in different rooms (early career, research collaborative, education, industry) [#mededchat](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)

T4 Would require someone monitoring chat for questions during live sessions. If hybrid in a workshop, virtual participants could be their own breakout for activities during the workshop [#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)

[@MattSakumoto](#) T3 Someone told me that AMEE had something similar. Sounds hilarious....especially if you can create your own avatar. [#MedEdChat](#)

Laura Baecher-Lind [@BaecherLind7 hours ago](#)

Plenaries lend themselves well to hybrid, but it's harder to incorporate small groups or other interactive sessions w both IRL and virtual. Likely would need separate smaller group sessions for in person vs virtual participants. [#MedEdChat](#)

Christopher Morosky [@cmmorosky7 hours ago](#)

T4 - SO important to realize that true [#hybrid](#) is basically planning for two meetings! Double the planning and \$\$\$! Better to think about [#LessonsLearned](#) from the virtual conference and how to use them for in person when we all start getting back together [#IRL](#) [#MedEdChat](#)

Stephanie Starr, MD [@StephRStarr7 hours ago](#)

[#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)

[@StephRStarr](#) T4 Love that idea of meeting ambassador. I have a planning meeting next week for a hybrid meeting in June. Will bring that idea up. [#MedEdChat](#)

Christopher Morosky [@cmmorosky7 hours ago](#)

[@GLBDallaghan](#) T4 - Despite the distraction we discussed earlier, a virtual discussion during presentations for all attendees and cataloging the chat would be great - until then, [#Twitter!](#) [#MedEdChat](#)

Stephanie Starr, MD [@StephRStarr7 hours ago](#)

[@GLBDallaghan](#) You would be the PERFECT ambassador!! Like a cruise director? [#MedEdChat](#) <https://t.co/eikINrzcc1>

Sateesh Arja, M.B.B.S., MHPE, MSPH [@ArjaSateesh7 hours ago](#)

[@MedEdChat](#) [#mededchat](#) T4 It looks like conferences like AMEE and IAMSE might be in-person in 2022. consider of offering hybrid conferences going forward in the future which could be useful for faculty members from the low resource context as they don't need to spend on travel [#meded](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)
[@StephRStarr](#) T4 Do I get to wear the uniform? [#MedEdChat](#) <https://t.co/Zy5lKuCFcl>

Stephanie Starr, MD [@StephRStarr7 hours ago](#)
For [@COMSEPediatrics](#) it was incredibly helpful to have someone from the meeting planning committee on Day One orient new attendees on how to get the most out of the virtual meeting. Maybe me more important than even for F2F. [#MedEdChat](#)

Gary Beck Dallaghan [@GLBDallaghan7 hours ago](#)
[@ArjaSateesh](#) [@MedEdChat](#) T4 For their meetings I wonder if the only hybrid piece will be keynote or plenary sessions. I know AMEE did that in the past for in-person....but not for workshops [#MedEdChat](#)

Christopher Morosky [@cmmorosky7 hours ago](#)
[@ArjaSateesh](#) [@MedEdChat](#) Here's the challenge - if your department knew that you could participate virtually with less cost to travel and less time away, would they ever let you travel to a conference again?? [#MedEdChat](#)

@GLBDallaghan @ArjaSateesh @MedEdChat That's what we went to for @apgonews #FDS2022. We found most of our membership wanted to be in person this year anyway, and we had hardly any request to present virtually-only #MedEdChat

Sateesh Arja, M.B.B.S., MHPE, MSPH @ArjaSateesh7 hours ago

@cmmorosky @MedEdChat #mededchat T4 my concern is only from low resource context only. Even without pandemic also they have very low allocated budget to attend conferences #meded

Stephanie Starr, MD @StephRStarr7 hours ago

@ArjaSateesh @cmmorosky @MedEdChat I also wonder if primary caregivers with very young children are also less likely to be able to attend a hybrid conference to network? #MedEdChat

Christopher Morosky @cmmorosky7 hours ago

@ArjaSateesh @MedEdChat Agree - little more #equity with the virtual option, although some pressures still exist with clinical work back home, IT infrastructure and who has cameras / fast enough WiFi, but at the end of the day, virtual option adds more access! #MedEdChat
