MedEd Chat (hosted by ACE) @MedEdChat10 hours ago

TOPIC 1: If we truly embrace competency-based medical education, why is the transition from medical school to residency so challenging? #MedEdChat #meded

Gary Beck Dallaghan @GLBDallaghan10 hours ago

Gary here in NC #MedEdChat

Alliance4ClinEd @Alliance4ClinEd10 hours ago

T1 A colleague shared this great resource that offers some insights into why the transition is challenging and ways to mitigate it <https://t.co/a1GWrPuCqe> #MedEdChat #UME #GME

Alvin Calderon, MD, PhD, FACP @alvinseattle10 hours ago

@MedEdChat T1: For the students, so much of delivering care is context dependent, so learning how to care for patients in a different setting means learning a new system, too. For GMEs, we still need to learn about the student. #MedEdChat

MedEd Chat (hosted by ACE) @MedEdChat10 hours ago

Welcome to #MedEdChat @alvinseattle

Gary Beck Dallaghan @GLBDallaghan10 hours ago

T1 This study suggests that being immersed in the residency experience is how medical students transition to resident physicians. So does this mean med schools should require more acting internships just before graduation? #MedEdChat <https://t.co/1XGRvK5fHC>

Alliance4ClinEd @Alliance4ClinEd10 hours ago

@GLBDallaghan T1 Perhaps not. A different study indicated that students completing a transition-to-residency course felt better prepared for internship. Maybe those courses need to be further enhanced. #MedEdChat <https://t.co/tQErRV0JdS>

MedEd Chat (hosted by ACE) @MedEdChat10 hours ago

TOPIC 2: Is it possible to develop a common set of competencies every medical school implements? Why or why not? #MedEdChat #meded

Gary Beck Dallaghan [@GLBDallaghan](#) 10 hours ago

T2 This article does a good job addressing how [#CBME](#) was disrupted by COVID and the persistent confusion around CBME. I feel we already have multiple examples of competencies that have yet to find agreement [#MedEdChat](#) <https://t.co/eiwA2vZzIC>

MedEd Chat (hosted by ACE) [@MedEdChat](#) 10 hours ago

RT [@GLBDallaghan](#): T2 This article does a good job addressing how [#CBME](#) was disrupted by COVID and the persistent confusion around CBME. I feel we already have multiple examples of competencies that have yet to find agreement [#MedEdChat](#) <https://t.co/eiwA2vZzIC>

MedEd Chat (hosted by ACE) [@MedEdChat](#) 10 hours ago

Great to have you on [#MedEdChat](#) [@croyce62](#)

Gary Beck Dallaghan [@GLBDallaghan](#) 10 hours ago

[@croyce62](#) [@MedEdChat](#) T2 I completely agree with you. So much of the hang up with [#CBME](#) is the assessment piece.....but also thinking of it in terms of COMPETENCE and not summative assessments [#MedEdChat](#)

MedEd Chat (hosted by ACE) [@MedEdChat](#) 10 hours ago

TOPIC 3: If common competencies are designed, will they be sufficient for every residency specialty? Why or why not? [#MedEdChat](#) [#meded](#)

Ben Schneider, MD [@SchneiderBn](#) 10 hours ago

[@GLBDallaghan](#) Interesting - we don't require any Sub-Is, but our students all do them as they are essentially pre-reqs for ERAS. Rather than require courses I'd require competency attainment then suggest that Sub Is or other advanced electives are good ways to achieve the comp. t1 [#mededchat](#)

MedEd Chat (hosted by ACE) [@MedEdChat](#) 10 hours ago

Welcome to [#MedEdChat](#) [@SchneiderBn](#)

Kristina Dzara, PhD, MMSc [@KristinaDzara](#) 10 hours ago

RT [@GLBDallaghan](#): T2 This article does a good job addressing how [#CBME](#) was disrupted by COVID and the persistent confusion around CBME. I feel we already have multiple examples of competencies that have yet to find agreement [#MedEdChat](#) <https://t.co/eiwA2vZzIC>

Ben Schneider, MD [@SchneiderBn](#) 10 hours ago

[@MedEdChat](#) T3 [#MedEdChat](#) if you believe the role of UME is to prepare pluripotent stem cell like students for GME training I don't see why we would need specialty specific competencies for graduation. Specialty specific comps could 'extra' but should not be required.

Alliance4ClinEd @Alliance4ClinEd 10 hours ago

T3 For #medstudents, common competencies could be designed for undifferentiated students (think end of clerkship year competency demonstration). As they begin choosing specialties, those should be specific to better address the transition to #GME #MedEdChat

MedEd Chat (hosted by ACE) @MedEdChat 10 hours ago

RT @SchneiderBn: @MedEdChat T3 #MedEdChat if you believe the role of UME is to prepare pluripotent stem cell like students for GME training I don't see why we would need specialty specific competencies for graduation. Specialty specific comps could 'extra' but should not be required.

Kristina Dzara, PhD, MMSc @KristinaDzara 10 hours ago

Kristina here, signing in for #mededchat - supporting our #MedEd community.

Hi @GLBDallaghan and thank you for your #MedEdchat leadership! Also meet Simon, our super cute little pug! @DrSinhaEsq <https://t.co/WrGGSpE1bk>

MedEd Chat (hosted by ACE) @MedEdChat 10 hours ago

@KristinaDzara @GLBDallaghan @DrSinhaEsq Welcome to the #MedEdChat, @KristinaDzara AND Simon!

Kristina Dzara, PhD, MMSc @KristinaDzara 10 hours ago

RT @MedEdChat: TOPIC 3: TOPIC 3: If common competencies are designed, will they be sufficient for every residency specialty? Why or why not? #MedEdChat #meded

MedEd Chat (hosted by ACE) @MedEdChat 10 hours ago

TOPIC 4: There is work afoot to develop these UME competencies. How will medical schools respond to this? #MedEdChat #meded

Kristina Dzara, PhD, MMSc @KristinaDzara 10 hours ago

RT @MedEdChat: TOPIC 2: TOPIC 2: Is it possible to develop a common set of competencies every medical school implements? Why or why not? #MedEdChat #meded

Gary Beck Dallaghan @GLBDallaghan 10 hours ago

@croyce62 @SchneiderBn @MedEdChat T3 I agree with you on this...especially for those that expect students complete a visiting elective at their institution. #MedEdChat

Kristina Dzara, PhD, MMSc @KristinaDzara 10 hours ago

RT @MedEdChat: We will assume that all of your tweets during #MedEdChat are your own during this hour unless otherwise stated #meded

RT @MedEdChat: TOPIC 4: TOPIC 4: There is work afoot to develop these UME competencies. How will medical schools respond to this? #MedEdChat #meded

Gary Beck Dallaghan @GLBDallaghan10 hours ago

@MedEdChat T4 Med schools will respond as they always do.....they'll look at them and if they are not required by #LCME then they may or may not be implemented. Was that too cynical? #MedEdChat

Chirag Patel @CPatel MD10 hours ago

@SchneiderBn @MedEdChat Agree. Medical student first, specialty-ready second. Evaluating specialty specific competencies can be useful for PDs (and I am a fan), but first ensure general medical competencies are met for graduation. #MedEdChat

Deb Simpson @debsimpson310 hours ago

T4 - I'm one who thinks there IS a continuum to #MedEd and that there should be competencies responsive to cross cutting areas - cheering the new #DEI #AAMC competencies as a concept. Breaking down artificial silos for learners and faculty will create #innovation!! #MedEdChat

uCloudify @uCloudify10 hours ago

RT @debsimpson3: T4 - I'm one who thinks there IS a continuum to #MedEd and that there should be competencies responsive to cross cutting areas - cheering the new #DEI #AAMC competencies as a concept. Breaking down artificial silos for learners and faculty will create #innovation!! #MedEdChat

MedEd Chat (hosted by ACE) @MedEdChat10 hours ago

We have about 5 more minutes left in our discussion. Please feel free to give some final thoughts #meded #MedEdChat

Lauren Mazzurco @LaurenMazzurco9 hours ago

RT @GLBDallaghan: @MedEdChat T4 Med schools will respond as they always do.....they'll look at them and if they are not required by #LCME then they may or may not be implemented. Was that too cynical? #MedEdChat

Deb Simpson @debsimpson39 hours ago

@CPatel MD @SchneiderBn @MedEdChat Humm should we also consider workforce needs - owho get's loan repayment, preferences for residency, etc. Recognize medicine is a service industry - must reward those who seek high need low pay specialties. #MedEdChat #MedEd #primarycare @TheABFM @SocietyGIM @AmerGeriatrics

Paul Haidet @myheroistrane9 hours ago

I think the will needs to be there. The @acgme competencies gained traction because the RRCs actively made them part of the accreditation process. A similar thing did NOT happen with the LCME and the MSOP objectives, which were articulated at roughly the same time. #MedEdChat

Meded @cryptovitas9 hours ago

RT @debsimpson3: T4 - I'm one who thinks there IS a continuum to #MedEd and that there should be competencies responsive to cross cutting areas - cheering the new #DEI #AAMC competencies as a concept. Breaking down artificial silos for learners and faculty will create #innovation!! #MedEdChat
