@plucche117 @MedEdChat T1 creativity is essential, not just same approach implemented now with 3rd yr residents vs 2nd yr residents #MedEdChat #jgme

**Gail Sullivan** @DrMedEd\_itor9 hours ago

@plucche117 @MedEdChat T1 I think it's key that the intervention or approach has a new twist, new aspect beyond prior attempts. It's the intervention more than new participants or settings #MedEdChat #jgme

**Deb Simpson** @debsimpson39 hours ago

@DrMedEd\_itor @plucche117 @MedEdChat What about if it was implemented in a different specialty. Worked in surgery and now internal medicine trying it? Is that different enough? #MedEdChat

T1 OR what if we do something that seems insane....like asking students to take and pass Step 1 before they start medical school. Think about how that might alter how things are taught. #MedEdChat

**Deb Simpson** @debsimpson39 hours ago

**Gary Beck Dallaghan** @GLBDallaghan9 hours ago

@plucche117 Could be an interesting notion. We talk so much about the cost of #MedEd Maybe it should be considered #MedEdChat

**Deb Simpson** @debsimpson39 hours ago

@HalahlbrahimMD @DrMedEd\_itor @plucche117 @MedEdChat Great questions - obviously it's a continuum - Need replication yet isn't it important that #innovation be an evolution... if just pick it up and "plop" it somewhere else - seems like adoption - perhaps if it needed adaption to new country, location, audience.. #MedEdChat
